Technology Requirements

- Electronic Device with audio and camera capabilities, and internet accessibility
- High Speed Internet
- Software: PowerPoint, Word (or similar product)

Rhombus University is an online university and therefore a minimum level of available technology is required to be successful. Before admission, students are required to have an electronic device that allows them to access Populi and use mainstream software such as, Zoom, PowerPoint, Word, or similar products for turning in written assignments. Students also need to have access to high speed internet, a webcam, and headset or appropriate microphone and speaker system that allows them to interactively participate in weekly live classes. If exceptions are made, a reason for inability to comply and an appropriate alternative must be agreed upon by student and RU administration. Applicants must sign an acknowledgment of agreement and compliance before being admitted.

Each student must go through an online orientation before beginning classes that teaches them to use all necessary technology. An administrative person is always available upon request to meet via Zoom to share screens and teach students to use the products well before beginning classes. The last half of the weekly live class is also a time in which students can ask questions concerning accessing and using technology and completing assignments.
